EDUCATION

University of Illinois at Urbana-Champaign | *Gies College of Business*

August 2025 – May 2026

Master of Science in Business Analytics (STEM-designated)

Tamkang University

September 2021 – June 2025

Bachelor of Arts in Information and Library Science | Minor: International Business

EXPERIENCE

Growth Marketing Analytics Consultant — JumpFly (Client-Facing Consulting Project)

- Analyzed 70+ high-intent SEO and customer acquisition opportunities, identifying growth opportunities across five acquisition channels.
- Built log-log regression models and attribution frameworks that identified SEO and Direct traffic as the strongest drivers of revenue growth, supporting marketing investment prioritization.
- Evaluated performance across SEO, Direct, Paid Search, Reddit, and ChatGPT traffic sources, quantifying channel-level ROI differences to inform budget allocation decisions.
- Developed executive dashboards and delivered biweekly stakeholder presentations, translating complex analytical findings into actionable growth recommendations.

Taipei Medical University, Intern, Office of Data Science

Oct 2024 – Jun 2025

Clinical Data Analysis – MIMIC-III (SAS)

- Processed and validated approximately 59,000 hospital admission records from the MIMIC-III database using SAS.
- Evaluated healthcare evidence from 42 healthcare organizations through TriNetX and synthesized findings into stakeholder-ready reports.
- Conducted data validation and quality review activities to improve analytical readiness and reporting accuracy.
- Supported healthcare research initiatives through analytical reporting and presentation development.

Joint Commission of Taiwan, Research Intern

Jul 2023 – Aug 2023

Smart Healthcare Policy & Infrastructure Analysis (South Korea vs. Taiwan)

- Conducted comparative analysis across 10+ healthcare technology and policy domains in South Korea and Taiwan.
- Synthesized findings from government reports, industry publications, and healthcare research sources into executive-level presentations.
- Supported healthcare benchmarking initiatives and stakeholder planning through structured analytical research.

SELECTED PROJECTS

Real-Time Fleet Risk Monitoring & Analytics Platform — AWS

- Designed an AWS analytics platform using S3, Lambda, Glue, Athena, and Step Functions to process 45,000+ simulated monthly delivery events.
- Developed anomaly detection workflows, KPI monitoring systems, and automated reporting processes.
- Reduced manual monitoring effort by approximately 50% and supported an estimated \$4,000 monthly labor cost reduction.

Amazon Prime Day Consumer Analytics

- Analyzed purchasing behavior across **30+ product categories** using regression analysis, causal inference, and hypothesis testing techniques.
- Evaluated promotional responsiveness across multiple product segments, identifying categories most influenced by Prime Day promotions versus impulse purchasing behavior.
- Distinguished incremental promotional impact from demand-shifting effects, providing a framework for more accurate campaign performance evaluation.
- Developed executive dashboards summarizing analytical findings across **30+ categories** and translated insights into recommendations for future promotional strategy development.

Business Credit Risk Evaluation — Starbucks vs. Peloton

- Analyzed 5 years of SEC 10-K financial statement data using 9 credit risk indicators across profitability, leverage, liquidity, cash flow, and coverage categories.
- Developed a weighted credit scoring framework that assigned Starbucks a 4.5/5 risk score and Peloton a 1.5/5 risk score, highlighting significant differences in financial sustainability and debt repayment capacity.
- Identified strong cash generation and coverage performance for Starbucks while uncovering elevated leverage and liquidity risks for Peloton.
- Produced executive-style risk assessment reports and a repeatable credit evaluation framework supporting corporate credit analysis and lending decisions.

SKILLS

- Marketing Analytics: Customer Behavior Analysis • Attribution Modeling • ROI Analysis • A/B Testing • Marketing Performance Measurement
- Business Intelligence: Dashboard Development • KPI Reporting • Executive Reporting • Root Cause Analysis • Data Visualization
- Cloud Analytics: AWS Analytics: Pipelines • ETL Workflow Design • Operational Monitoring • Automated Reporting
- Technical Tools: SQL • Python • AWS (S3, Lambda, Glue, Athena) • Tableau • SAS • Excel

CORE STRENGTHS

Data-Driven Decision Making • Stakeholder Communication • Business Analytics • Marketing Analytics • Business Intelligence • Cloud Analytics • Problem Solving • Executive Presentation
